

Computers Exploration

1. Open a fresh document in Microsoft Word or Google Doc
2. Open an internet browser, and type a search in the address bar at top of page, or open a preferred search engine first and use that to look for a desired topic
 - Potential options
 - How-to video on _____
 - Recipes for _____
 - Pictures of _____
 - News
 - Travel to _____
3. In your document, type a few notes about what you found. Copy and paste the web address in case you want to get back to it later
4. Create a new presentation in Powerpoint or Google Slides
 - Insert text and a picture about your previous search topic (copy and paste or write fresh)
5. If you have time, open a numbers program (Excel or Google Sheets) and create a basic spreadsheet
 - Holiday names and dates
 - Family names and birthdays
 - Grocery items and how many to get
 - Holiday shopping budget (names, ideas, cost thoughts)
6. Explore search engines or browsing – what are stumbling blocks, what do you find interesting? Do you have favorites?
